

The Division of Chemistry & Material Science within FDA-CDRH-OSEL (Office of Science and Engineering Laboratories) seeks a PhD Scientist with extensive experience in bioanalytical chemistry with specific expertise in traditional and surface mass spectrometers. Duties include the identification of unknown chemical species in medical devices and combination products, including chemical species of biological origin. Emphasis is placed on hands-on expertise in LC-MS/MS, TOF-Mass Spec, Double or Triple Quad Mass Spec, ESI & API, modification of current instrumentation, mass spectroscopy of biomolecules. Applicants interested in this fellowship position should send CV to Dr. Dinesh Patwardhan with the subject heading "Mass Spec Applicant" at [Dinesh.Patwardhan@fda.hhs.gov](mailto:Dinesh.Patwardhan@fda.hhs.gov). This is not a GS position.
