

Tenure-Track Investigator

Liver Diseases Branch, NIDDK

(deadline: May 31)

The Liver Diseases Branch (LDB) of the National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK), National Institutes of Health (NIH) invites applications for a tenure track position from clinical investigators interested in clinical research involving liver diseases. Specific areas of research interest include viral hepatitis and non-cirrhotic portal hypertension. Priority will be given to MD applicants at the Assistant Professor level in academic medical centers or those finishing their fellowship positions. The applicant must have a proven record of accomplishments in clinical research and will be expected to propose and pursue an independent clinical research program in liver diseases. The position offers unparalleled opportunities for interdisciplinary collaboration within NIDDK and throughout NIH.

The LDB (<http://www2.niddk.nih.gov/NIDDKLabs/AllLabs/Branches/LiverDiseasesBranch.htm>) is located on the NIH main campus in Bethesda, Md., a Washington, D.C., suburb. Interested applicants should send: Curriculum Vitae, publications list, research accomplishments summary, future research plan, and three reference names with contact information to Mrs. Michelle Berry (michellew@mail.nih.gov), LDB Search Committee, LDB, NIDDK, NIH, Bldg. 10, Rm. 9B16, Bethesda, MD 20892-1800. Application deadline: May 31, 2010. Review of applications will begin on or about July 30, 2010. DHHS and NIH are Equal Opportunity Employers.
