

Potential Postdoctoral position in Systems Biology and/or Bioengineering

Position:

The Systems Biology and Bioengineering lab (<http://users.ntua.gr/leo/>) at the National Technical University of Athens (NTUA) is interested for applying jointly with a researcher abroad for a 3-year internship at NTUA.

The call can be found at http://www.gsrt.gr/default.asp?V_ITEM_ID=6673 .

Possible areas of research include high throughput proteomics for cell signaling, computational tools and design projects in biology, soft tissue biomechanics, and signaling pathways in cartilage degeneration.

For information, please contact: Leonidas Alexopoulos, leo@mail.ntua.gr
