

National Institutes of Health

Post-doctoral position

We study the relationships between intracellular neutral lipid droplets and pathologies (insulin resistance) in obesity and other metabolic disorders. Focus is on the role of lipid droplet-associated PAT proteins (Perilipin, ADRP, TIP47) with emphasis on animal models (knock-outs, transgenics).

To apply send CV to deanl@intra.niddk.nih.gov and arrange to have three letters of recommendation sent to:

Dr. Constantine Londos
Building 50, Room 3140
NIDDK, National Institutes of Health
Bethesda, MD 20892-8028

Applicants must be within 5 years of receipt of doctoral degree.

Applications may be submitted on-line. Search the main NIH site for positions open, then go to postdoctoral positions.
