

STATE UNIVERSITY OF NEW YORK
BIOCHEMISTRY & CELL BIOLOGY

Postdoctoral Research Associate

Stony Brook University in Stony Brook on Long Island, New York, is seeking a Postdoctoral Research Associate for the Biochemistry and Cell Biology Department. The candidate will complete research to analyze the roles of the transcriptional repressor REST during neural development. Applicant must possess a recent PhD (or equivalent) in Biochemistry, Neurobiology or in a related field. A background in the latest biochemical, molecular biology, and cell culture techniques with excellent communication skills are desired. Background and experience in neural development are preferred.

Interested individuals should send an application package through e-mail or mail, (a cover letter detailing experience; CV; and names, telephone numbers and e-mail addresses of three references) to Nurit Ballas, Department of Biochemistry and Cell Biology, 450 Life Sciences Bldg., Stony Brook University, Stony Brook, New York 11794-5215.
Email: nballas@notes.cc.sunysb.edu
