

Postdoctoral Research Position
Department of Molecular Biology
Biomedical Research Foundation of the Academy of Athens

In the context of the starting European Union FP7 Program entitled “Identification and therapeutic targeting of common arrhythmia trigger mechanisms”, we have an opening for a Postdoctoral Research Fellow. The project will involve mutation screening, gene expression and protein analysis, molecular mechanism characterization as well as a variety of other approaches. The applicants should have a degree in Biology, Molecular Biology, Biochemistry or other closely related fields, experience in Molecular and/or Cell Biology laboratory techniques, and/or a PhD in a closely related discipline.

For further enquiries and applications please contact the scientist in charge of the program:

Despina Sanoudou PhD, FACMG CIBiol
Assistant Professor
