

UCLA
David Geffen School of Medicine
Inflammatory Bowel Disease (IBD) Center

Post-doctoral position

A post-doctoral position is available in the Inflammatory Bowel Disease (IBD) Center (Director: Dr. Charalabos Pothoulakis), David Geffen School of Medicine at UCLA in NIH-funded projects to study the **role of neuropeptides in fat tissue-mediated responses** in collaboration and under the supervision of Dr. Iordanis Karagiannidis.

The project will utilize multi-disciplinary approaches including molecular and cellular biology, genetically engineered and colitis mouse models and advanced imaging techniques.

We seek a highly motivated individual with a **Ph.D.** or **M.D./Ph.D.** degree and good communication skills. Candidates should submit **curriculum vitae**, **summary of research plans**, and **three references** to:

Dr Iordanis Karagiannidis.
